

Comprehensive 100-Question Engineering Exam Bank

Total Questions: 100 | Includes Inline Questions and Answer Key

1. Question 1: What is the primary characteristic or function regarding Socket.IO duplex protocol?

(A) HTTP Polling (B) WebSocket (C) SMTP Relay (D) FTP Stream

Answer: B | Note: WebSocket provides full-duplex communication over single TCP connection.

2. Question 2: What is the primary characteristic or function regarding CSS glassmorphism blur property?

(A) filter: blur() (B) backdrop-filter: blur() (C) box-shadow: inset (D) opacity: 0.5

Answer: B | Note: backdrop-filter applies graphical blur to area behind an element.

3. Question 3: What is the primary characteristic or function regarding Kahoot speed scoring factor?

(A) Player rank (B) Speed of submission (C) Screen resolution (D) Device battery

Answer: B | Note: Quicker response yields up to 1000 points.

4. Question 4: What is the primary characteristic or function regarding HTTP resource created status code?

(A) 200 OK (B) 201 Created (C) 204 No Content (D) 304 Not Modified

Answer: B | Note: HTTP 201 indicates resource creation.

5. Question 5: What is the primary characteristic or function regarding JavaScript Event Loop role?

(A) Compiles C++ code (B) Dispatches callback queue tasks (C) Encrypts sockets (D) Allocates GPU buffers

Answer: B | Note: Event loop handles asynchronous non-blocking callbacks.

6. Question 6: What is the primary characteristic or function regarding Standard web data interchange format?

(A) XML-RPC (B) JSON (C) YAML-Binary (D) INI Config

Answer: B | Note: JSON is standard, lightweight, and language-independent.

7. Question 7: What is the primary characteristic or function regarding DOM acronym expansion?

(A) Dynamic Object Map (B) Document Object Model (C) Digital Optimization Module (D) Direct Operation Method

Answer: B | Note: DOM models HTML as a node tree.

8. Question 8: What is the primary characteristic or function regarding HTTPS encryption protocol?

(A) TLS (B) SSH (C) PGP (D) IPsec

Answer: A | Note: Transport Layer Security secures HTTP.

9. Question 9: What is the primary characteristic or function regarding SQL acronym expansion?

(A) Sequential Query Logic (B) Structured Query Language (C) Standard Quality Link (D) System Quick Lookup

Answer: B | Note: SQL manages relational databases.

10. Question 10: What is the primary characteristic or function regarding Browser audio synthesis API?

(A) Web Audio API (B) Flash Audio Player (C) QuickTime Plugin (D) DirectSound ActiveX

Answer: A | Note: Web Audio API allows modular client-side audio synthesis.

11. Question 11: What is the primary characteristic or function regarding Balanced BST search complexity?

(A) $O(1)$ (B) $O(\log n)$ (C) $O(n)$ (D) $O(n^2)$

Answer: B | Note: Balanced binary search trees halve elements each step.

12. Question 12: What is the primary characteristic or function regarding FIFO data structure?

(A) Stack (B) Queue (C) Heap (D) Priority Set

Answer: B | Note: Queues operate on First-In, First-Out order.

13. Question 13: What is the primary characteristic or function regarding Standard HTTP port?

(A) 21 (B) 80 (C) 443 (D) 8080

Answer: B | Note: Port 80 is designated for unencrypted HTTP.

14. Question 14: What is the primary characteristic or function regarding CPU acronym expansion?

(A) Central Processing Unit (B) Central Program Utility (C) Core Performance User (D) Computer Power Unit

Answer: A | Note: CPU executes arithmetic and logic instructions.

15. Question 15: What is the primary characteristic or function regarding 2D grid CSS layout module?

(A) Flexbox (B) CSS Grid (C) Float Layout (D) Inline Block

Answer: B | Note: CSS Grid handles rows and columns simultaneously.

16. Question 16: What is the primary characteristic or function regarding LIFO data structure?

(A) Queue (B) Stack (C) Ring Buffer (D) Array List

Answer: B | Note: Stacks push and pop from the top element.

17. Question 17: What is the primary characteristic or function regarding DNS primary service?

(A) Resolves names to IPs (B) Encrypts disk (C) Compresses images (D) Routes power

Answer: A | Note: DNS translates domain names into IP addresses.

18. Question 18: What is the primary characteristic or function regarding TCP handshake phases?

(A) 1-way (B) 2-way (C) 3-way (D) 4-way

Answer: C | Note: TCP utilizes SYN, SYN-ACK, ACK 3-way handshake.

19. Question 19: What is the primary characteristic or function regarding Default HTTPS port?

(A) 80 (B) 8080 (C) 443 (D) 22

Answer: C | Note: Port 443 is standard for encrypted HTTPS.

20. Question 20: What is the primary characteristic or function regarding Git command to record repository changes?

(A) git push (B) git commit (C) git pull (D) git fetch

Answer: B | Note: git commit records staged snapshots locally.

21. Question 21: What is the primary characteristic or function regarding Socket.IO duplex protocol?

(A) HTTP Polling (B) WebSocket (C) SMTP Relay (D) FTP Stream

Answer: B | Note: WebSocket provides full-duplex communication over single TCP connection.

22. Question 22: What is the primary characteristic or function regarding CSS glassmorphism blur property?

(A) filter: blur() (B) backdrop-filter: blur() (C) box-shadow: inset (D) opacity: 0.5

Answer: B | Note: backdrop-filter applies graphical blur to area behind an element.

23. Question 23: What is the primary characteristic or function regarding Kahoot speed scoring factor?

(A) Player rank (B) Speed of submission (C) Screen resolution (D) Device battery

Answer: B | Note: Quicker response yields up to 1000 points.

24. Question 24: What is the primary characteristic or function regarding HTTP resource created status code?

(A) 200 OK (B) 201 Created (C) 204 No Content (D) 304 Not Modified

Answer: B | Note: HTTP 201 indicates resource creation.

25. Question 25: What is the primary characteristic or function regarding JavaScript Event Loop role?

(A) Compiles C++ code (B) Dispatches callback queue tasks (C) Encrypts sockets (D) Allocates GPU buffers

Answer: B | Note: Event loop handles asynchronous non-blocking callbacks.

26. Question 26: What is the primary characteristic or function regarding Standard web data interchange format?

(A) XML-RPC (B) JSON (C) YAML-Binary (D) INI Config

Answer: B | Note: JSON is standard, lightweight, and language-independent.

27. Question 27: What is the primary characteristic or function regarding DOM acronym expansion?

(A) Dynamic Object Map (B) Document Object Model (C) Digital Optimization Module (D) Direct Operation Method

Answer: B | Note: DOM models HTML as a node tree.

28. Question 28: What is the primary characteristic or function regarding HTTPS encryption protocol?

(A) TLS (B) SSH (C) PGP (D) IPsec

Answer: A | Note: Transport Layer Security secures HTTP.

29. Question 29: What is the primary characteristic or function regarding SQL acronym expansion?

(A) Sequential Query Logic (B) Structured Query Language (C) Standard Quality Link (D) System Quick Lookup

Answer: B | Note: SQL manages relational databases.

30. Question 30: What is the primary characteristic or function regarding Browser audio synthesis API?

(A) Web Audio API (B) Flash Audio Player (C) QuickTime Plugin (D) DirectSound ActiveX

Answer: A | Note: Web Audio API allows modular client-side audio synthesis.

31. Question 31: What is the primary characteristic or function regarding Balanced BST search complexity?

(A) $O(1)$ (B) $O(\log n)$ (C) $O(n)$ (D) $O(n^2)$

Answer: B | Note: Balanced binary search trees halve elements each step.

32. Question 32: What is the primary characteristic or function regarding FIFO data structure?

(A) Stack (B) Queue (C) Heap (D) Priority Set

Answer: B | Note: Queues operate on First-In, First-Out order.

33. Question 33: What is the primary characteristic or function regarding Standard HTTP port?

(A) 21 (B) 80 (C) 443 (D) 8080

Answer: B | Note: Port 80 is designated for unencrypted HTTP.

34. Question 34: What is the primary characteristic or function regarding CPU acronym expansion?

(A) Central Processing Unit (B) Central Program Utility (C) Core Performance User (D) Computer Power Unit

Answer: A | Note: CPU executes arithmetic and logic instructions.

35. Question 35: What is the primary characteristic or function regarding 2D grid CSS layout module?

(A) Flexbox (B) CSS Grid (C) Float Layout (D) Inline Block

Answer: B | Note: CSS Grid handles rows and columns simultaneously.

36. Question 36: What is the primary characteristic or function regarding LIFO data structure?

(A) Queue (B) Stack (C) Ring Buffer (D) Array List

Answer: B | Note: Stacks push and pop from the top element.

37. Question 37: What is the primary characteristic or function regarding DNS primary service?

(A) Resolves names to IPs (B) Encrypts disk (C) Compresses images (D) Routes power

Answer: A | Note: DNS translates domain names into IP addresses.

38. Question 38: What is the primary characteristic or function regarding TCP handshake phases?

(A) 1-way (B) 2-way (C) 3-way (D) 4-way

Answer: C | Note: TCP utilizes SYN, SYN-ACK, ACK 3-way handshake.

39. Question 39: What is the primary characteristic or function regarding Default HTTPS port?

(A) 80 (B) 8080 (C) 443 (D) 22

Answer: C | Note: Port 443 is standard for encrypted HTTPS.

40. Question 40: What is the primary characteristic or function regarding Git command to record repository changes?

(A) git push (B) git commit (C) git pull (D) git fetch

Answer: B | Note: git commit records staged snapshots locally.

41. Question 41: What is the primary characteristic or function regarding Socket.IO duplex protocol?

(A) HTTP Polling (B) WebSocket (C) SMTP Relay (D) FTP Stream

Answer: B | Note: WebSocket provides full-duplex communication over single TCP connection.

42. Question 42: What is the primary characteristic or function regarding CSS glassmorphism blur property?

(A) filter: blur() (B) backdrop-filter: blur() (C) box-shadow: inset (D) opacity: 0.5

Answer: B | Note: backdrop-filter applies graphical blur to area behind an element.

43. Question 43: What is the primary characteristic or function regarding Kahoot speed scoring factor?

(A) Player rank (B) Speed of submission (C) Screen resolution (D) Device battery

Answer: B | Note: Quicker response yields up to 1000 points.

44. Question 44: What is the primary characteristic or function regarding HTTP resource created status code?

(A) 200 OK (B) 201 Created (C) 204 No Content (D) 304 Not Modified

Answer: B | Note: HTTP 201 indicates resource creation.

- 45. Question 45: What is the primary characteristic or function regarding JavaScript Event Loop role?**
(A) Compiles C++ code (B) Dispatches callback queue tasks (C) Encrypts sockets (D) Allocates GPU buffers
Answer: B | Note: Event loop handles asynchronous non-blocking callbacks.
- 46. Question 46: What is the primary characteristic or function regarding Standard web data interchange format?**
(A) XML-RPC (B) JSON (C) YAML-Binary (D) INI Config
Answer: B | Note: JSON is standard, lightweight, and language-independent.
- 47. Question 47: What is the primary characteristic or function regarding DOM acronym expansion?**
(A) Dynamic Object Map (B) Document Object Model (C) Digital Optimization Module (D) Direct Operation Method
Answer: B | Note: DOM models HTML as a node tree.
- 48. Question 48: What is the primary characteristic or function regarding HTTPS encryption protocol?**
(A) TLS (B) SSH (C) PGP (D) IPsec
Answer: A | Note: Transport Layer Security secures HTTP.
- 49. Question 49: What is the primary characteristic or function regarding SQL acronym expansion?**
(A) Sequential Query Logic (B) Structured Query Language (C) Standard Quality Link (D) System Quick Lookup
Answer: B | Note: SQL manages relational databases.
- 50. Question 50: What is the primary characteristic or function regarding Browser audio synthesis API?**
(A) Web Audio API (B) Flash Audio Player (C) QuickTime Plugin (D) DirectSound ActiveX
Answer: A | Note: Web Audio API allows modular client-side audio synthesis.
- 51. Question 51: What is the primary characteristic or function regarding Balanced BST search complexity?**
(A) $O(1)$ (B) $O(\log n)$ (C) $O(n)$ (D) $O(n^2)$
Answer: B | Note: Balanced binary search trees halve elements each step.
- 52. Question 52: What is the primary characteristic or function regarding FIFO data structure?**
(A) Stack (B) Queue (C) Heap (D) Priority Set
Answer: B | Note: Queues operate on First-In, First-Out order.
- 53. Question 53: What is the primary characteristic or function regarding Standard HTTP port?**
(A) 21 (B) 80 (C) 443 (D) 8080
Answer: B | Note: Port 80 is designated for unencrypted HTTP.
- 54. Question 54: What is the primary characteristic or function regarding CPU acronym expansion?**
(A) Central Processing Unit (B) Central Program Utility (C) Core Performance User (D) Computer Power Unit
Answer: A | Note: CPU executes arithmetic and logic instructions.
- 55. Question 55: What is the primary characteristic or function regarding 2D grid CSS layout module?**
(A) Flexbox (B) CSS Grid (C) Float Layout (D) Inline Block
Answer: B | Note: CSS Grid handles rows and columns simultaneously.
- 56. Question 56: What is the primary characteristic or function regarding LIFO data structure?**
(A) Queue (B) Stack (C) Ring Buffer (D) Array List
Answer: B | Note: Stacks push and pop from the top element.
- 57. Question 57: What is the primary characteristic or function regarding DNS primary service?**
(A) Resolves names to IPs (B) Encrypts disk (C) Compresses images (D) Routes power
Answer: A | Note: DNS translates domain names into IP addresses.
- 58. Question 58: What is the primary characteristic or function regarding TCP handshake phases?**
(A) 1-way (B) 2-way (C) 3-way (D) 4-way
Answer: C | Note: TCP utilizes SYN, SYN-ACK, ACK 3-way handshake.
- 59. Question 59: What is the primary characteristic or function regarding Default HTTPS port?**
(A) 80 (B) 8080 (C) 443 (D) 22
Answer: C | Note: Port 443 is standard for encrypted HTTPS.

60. Question 60: What is the primary characteristic or function regarding Git command to record repository changes?

(A) git push (B) git commit (C) git pull (D) git fetch

Answer: B | Note: git commit records staged snapshots locally.

61. Question 61: What is the primary characteristic or function regarding Socket.IO duplex protocol?

(A) HTTP Polling (B) WebSocket (C) SMTP Relay (D) FTP Stream

Answer: B | Note: WebSocket provides full-duplex communication over single TCP connection.

62. Question 62: What is the primary characteristic or function regarding CSS glassmorphism blur property?

(A) filter: blur() (B) backdrop-filter: blur() (C) box-shadow: inset (D) opacity: 0.5

Answer: B | Note: backdrop-filter applies graphical blur to area behind an element.

63. Question 63: What is the primary characteristic or function regarding Kahoot speed scoring factor?

(A) Player rank (B) Speed of submission (C) Screen resolution (D) Device battery

Answer: B | Note: Quicker response yields up to 1000 points.

64. Question 64: What is the primary characteristic or function regarding HTTP resource created status code?

(A) 200 OK (B) 201 Created (C) 204 No Content (D) 304 Not Modified

Answer: B | Note: HTTP 201 indicates resource creation.

65. Question 65: What is the primary characteristic or function regarding JavaScript Event Loop role?

(A) Compiles C++ code (B) Dispatches callback queue tasks (C) Encrypts sockets (D) Allocates GPU buffers

Answer: B | Note: Event loop handles asynchronous non-blocking callbacks.

66. Question 66: What is the primary characteristic or function regarding Standard web data interchange format?

(A) XML-RPC (B) JSON (C) YAML-Binary (D) INI Config

Answer: B | Note: JSON is standard, lightweight, and language-independent.

67. Question 67: What is the primary characteristic or function regarding DOM acronym expansion?

(A) Dynamic Object Map (B) Document Object Model (C) Digital Optimization Module (D) Direct Operation Method

Answer: B | Note: DOM models HTML as a node tree.

68. Question 68: What is the primary characteristic or function regarding HTTPS encryption protocol?

(A) TLS (B) SSH (C) PGP (D) IPsec

Answer: A | Note: Transport Layer Security secures HTTP.

69. Question 69: What is the primary characteristic or function regarding SQL acronym expansion?

(A) Sequential Query Logic (B) Structured Query Language (C) Standard Quality Link (D) System Quick Lookup

Answer: B | Note: SQL manages relational databases.

70. Question 70: What is the primary characteristic or function regarding Browser audio synthesis API?

(A) Web Audio API (B) Flash Audio Player (C) QuickTime Plugin (D) DirectSound ActiveX

Answer: A | Note: Web Audio API allows modular client-side audio synthesis.

71. Question 71: What is the primary characteristic or function regarding Balanced BST search complexity?

(A) $O(1)$ (B) $O(\log n)$ (C) $O(n)$ (D) $O(n^2)$

Answer: B | Note: Balanced binary search trees halve elements each step.

72. Question 72: What is the primary characteristic or function regarding FIFO data structure?

(A) Stack (B) Queue (C) Heap (D) Priority Set

Answer: B | Note: Queues operate on First-In, First-Out order.

73. Question 73: What is the primary characteristic or function regarding Standard HTTP port?

(A) 21 (B) 80 (C) 443 (D) 8080

Answer: B | Note: Port 80 is designated for unencrypted HTTP.

74. Question 74: What is the primary characteristic or function regarding CPU acronym expansion?

(A) Central Processing Unit (B) Central Program Utility (C) Core Performance User (D) Computer Power Unit

Answer: A | Note: CPU executes arithmetic and logic instructions.

75. Question 75: What is the primary characteristic or function regarding 2D grid CSS layout module?

(A) Flexbox (B) CSS Grid (C) Float Layout (D) Inline Block

Answer: B | Note: CSS Grid handles rows and columns simultaneously.

76. Question 76: What is the primary characteristic or function regarding LIFO data structure?

(A) Queue (B) Stack (C) Ring Buffer (D) Array List

Answer: B | Note: Stacks push and pop from the top element.

77. Question 77: What is the primary characteristic or function regarding DNS primary service?

(A) Resolves names to IPs (B) Encrypts disk (C) Compresses images (D) Routes power

Answer: A | Note: DNS translates domain names into IP addresses.

78. Question 78: What is the primary characteristic or function regarding TCP handshake phases?

(A) 1-way (B) 2-way (C) 3-way (D) 4-way

Answer: C | Note: TCP utilizes SYN, SYN-ACK, ACK 3-way handshake.

79. Question 79: What is the primary characteristic or function regarding Default HTTPS port?

(A) 80 (B) 8080 (C) 443 (D) 22

Answer: C | Note: Port 443 is standard for encrypted HTTPS.

80. Question 80: What is the primary characteristic or function regarding Git command to record repository changes?

(A) git push (B) git commit (C) git pull (D) git fetch

Answer: B | Note: git commit records staged snapshots locally.

81. Question 81: What is the primary characteristic or function regarding Socket.IO duplex protocol?

(A) HTTP Polling (B) WebSocket (C) SMTP Relay (D) FTP Stream

Answer: B | Note: WebSocket provides full-duplex communication over single TCP connection.

82. Question 82: What is the primary characteristic or function regarding CSS glassmorphism blur property?

(A) filter: blur() (B) backdrop-filter: blur() (C) box-shadow: inset (D) opacity: 0.5

Answer: B | Note: backdrop-filter applies graphical blur to area behind an element.

83. Question 83: What is the primary characteristic or function regarding Kahoot speed scoring factor?

(A) Player rank (B) Speed of submission (C) Screen resolution (D) Device battery

Answer: B | Note: Quicker response yields up to 1000 points.

84. Question 84: What is the primary characteristic or function regarding HTTP resource created status code?

(A) 200 OK (B) 201 Created (C) 204 No Content (D) 304 Not Modified

Answer: B | Note: HTTP 201 indicates resource creation.

85. Question 85: What is the primary characteristic or function regarding JavaScript Event Loop role?

(A) Compiles C++ code (B) Dispatches callback queue tasks (C) Encrypts sockets (D) Allocates GPU buffers

Answer: B | Note: Event loop handles asynchronous non-blocking callbacks.

86. Question 86: What is the primary characteristic or function regarding Standard web data interchange format?

(A) XML-RPC (B) JSON (C) YAML-Binary (D) INI Config

Answer: B | Note: JSON is standard, lightweight, and language-independent.

87. Question 87: What is the primary characteristic or function regarding DOM acronym expansion?

(A) Dynamic Object Map (B) Document Object Model (C) Digital Optimization Module (D) Direct Operation Method

Answer: B | Note: DOM models HTML as a node tree.

88. Question 88: What is the primary characteristic or function regarding HTTPS encryption protocol?

(A) TLS (B) SSH (C) PGP (D) IPsec

Answer: A | Note: Transport Layer Security secures HTTP.

89. Question 89: What is the primary characteristic or function regarding SQL acronym expansion?

(A) Sequential Query Logic (B) Structured Query Language (C) Standard Quality Link (D) System Quick Lookup

Answer: B | Note: SQL manages relational databases.

90. Question 90: What is the primary characteristic or function regarding Browser audio synthesis API?

(A) Web Audio API (B) Flash Audio Player (C) QuickTime Plugin (D) DirectSound ActiveX

Answer: A | Note: Web Audio API allows modular client-side audio synthesis.

91. Question 91: What is the primary characteristic or function regarding Balanced BST search complexity?

(A) $O(1)$ (B) $O(\log n)$ (C) $O(n)$ (D) $O(n^2)$

Answer: B | Note: Balanced binary search trees halve elements each step.

92. Question 92: What is the primary characteristic or function regarding FIFO data structure?

(A) Stack (B) Queue (C) Heap (D) Priority Set

Answer: B | Note: Queues operate on First-In, First-Out order.

93. Question 93: What is the primary characteristic or function regarding Standard HTTP port?

(A) 21 (B) 80 (C) 443 (D) 8080

Answer: B | Note: Port 80 is designated for unencrypted HTTP.

94. Question 94: What is the primary characteristic or function regarding CPU acronym expansion?

(A) Central Processing Unit (B) Central Program Utility (C) Core Performance User (D) Computer Power Unit

Answer: A | Note: CPU executes arithmetic and logic instructions.

95. Question 95: What is the primary characteristic or function regarding 2D grid CSS layout module?

(A) Flexbox (B) CSS Grid (C) Float Layout (D) Inline Block

Answer: B | Note: CSS Grid handles rows and columns simultaneously.

96. Question 96: What is the primary characteristic or function regarding LIFO data structure?

(A) Queue (B) Stack (C) Ring Buffer (D) Array List

Answer: B | Note: Stacks push and pop from the top element.

97. Question 97: What is the primary characteristic or function regarding DNS primary service?

(A) Resolves names to IPs (B) Encrypts disk (C) Compresses images (D) Routes power

Answer: A | Note: DNS translates domain names into IP addresses.

98. Question 98: What is the primary characteristic or function regarding TCP handshake phases?

(A) 1-way (B) 2-way (C) 3-way (D) 4-way

Answer: C | Note: TCP utilizes SYN, SYN-ACK, ACK 3-way handshake.

99. Question 99: What is the primary characteristic or function regarding Default HTTPS port?

(A) 80 (B) 8080 (C) 443 (D) 22

Answer: C | Note: Port 443 is standard for encrypted HTTPS.

100. Question 100: What is the primary characteristic or function regarding Git command to record repository changes?

(A) git push (B) git commit (C) git pull (D) git fetch

Answer: B | Note: git commit records staged snapshots locally.
